

### REMARKS

In the Notice of Allowance, the Examiner allowed claims 1-46. The Examiner also amended the title to recite "Method and Apparatus for Compensating Duty Cycle Distortion in a Data Output Signal From a Memory Device by Delaying and Distorting a Reference Clock." In the proposed amendment, Applicants have amended the title to correct the Examiner's typographical error and replace the erroneous term with the correct term "Distorting." Further, Applicants note that the title listed in the Notice of Allowance includes this typographical error and another typographical error with regards to the word "distortion." Applicants proposed amendment to the title merely corrects the typographical error in the Examiner's amendment to the title. Accordingly, Applicants respectfully request recommendation for entry of the amendment by the primary Examiner and approval for the amendment by the Director.

Respectfully submitted,

Date: November 19, 2004
